**Loscam Unveils First ESG Report**

30 December 2024 – We are excited to announce the release of Loscam’s inaugural Environmental, Social, and Governance (ESG) Report! This significant milestone reflects our steadfast commitment to environmental stewardship, social responsibility, and transparent governance. Our first report showcases our progress in reducing carbon emissions, implementing sustainable practices, and strengthening our social and governance frameworks across all operations.

In our first report, it highlighted Loscam’s development and commitment of a set of 10 ESG targets that align with our three core pillars:

**1. Environmental Responsibility**

In 2023, we stepped up our commitment to reducing environmental impacts and efficient use of resources by setting specific environmental targets that build on our long-term goal to become a net-zero company by 2050.

**2. Operational Excellence**

We adhere to a people-oriented management philosophy, ensuring we attract and retain the best talent in the industry. Loscam respects and protects the legitimate rights and interests of all employees, promotes channels for internal communication, and continuously improves occupational health and safety at all our locations.

**3. Innovation and Collaborative Impact**

We drive sustainable growth through innovation and responsible supply chain management, actively engaging with local stakeholders to address social and environmental challenges. Our supply chain management practices are designed to ensure ethical sourcing, efficiency, and transparency, fostering a resilient and sustainable network.

To support these targets, we have established a robust ESG governance structure to meticulously track and monitor our progress. This ensures we remain accountable and transparent in our journey towards achieving these goals.

If you are interested to read our full report to learn more about our dedication to a sustainable future, please contact us at [esgproject@loscam.com](mailto:esgproject@loscam.com)

Join us as we embark on this exciting journey toward a greener, more responsible future!
